

PETR KULAKOV

Senior Frontend Developer

petr.alex.kulakov@gmail.com | +381 63 1775854 | Serbia | [linkedin.com/in/petr-kulakov](https://www.linkedin.com/in/petr-kulakov)

SUMMARY

Senior Frontend Developer with 5 years of experience building responsive, production web applications with React, Solid.js, and TypeScript. Focused on reusable component architecture, REST API integration, and automated testing with Vitest and Playwright. Proven track record of improving performance and reducing defect rates, with experience collaborating in fully remote, cross-functional teams. Authorized to work from Serbia. Seeking a frontend role at an international product company.

SKILLS

Languages: JavaScript, TypeScript
Frameworks & Libraries: React.js, Next.js, Vue.js, Solid.js, Redux.js, Node.js
Styling: HTML & CSS, SASS, Tailwind CSS, Bootstrap, Responsive Design
Testing: Vitest, Playwright
Tools & Workflow: Git, Vite, RESTful APIs, Agile/Kanban, AI-assisted development (Claude)

WORK EXPERIENCE

Senior Frontend Developer, Suvvy.ai

Nov 2023 – Jun 2026

- Engineered a reusable UI component library with Solid.js and Tailwind CSS, cutting new-feature development time and ensuring visual consistency across the product
- Integrated AI-assisted development (Cursor, Claude.ai) into the workflow, cutting feature implementation time by ~40% through automation of routine tasks and faster debugging
- Automated end-to-end and unit test coverage with Vitest and Playwright, reducing production bugs by ~20%
- Optimized rendering and bundle size, cutting page load time by ~35% and improving Core Web Vitals
- Integrated RESTful APIs and implemented application-wide state management, improving data consistency and reliability
- Led code reviews and sprint planning within an Agile, fully remote cross-functional team, supporting on-time delivery of every sprint
- Mentored junior and mid-level developers through pair programming and code reviews, accelerating onboarding and improving overall code quality

Frontend Developer, Optimetr

Sep 2021 – Oct 2023

- Delivered 15+ production websites and web applications using React, Next.js, and Vue, tailored to varied client requirements
- Collaborated directly with clients and stakeholders to scope requirements and translate business needs into technical solutions
- Implemented Redux-based state management across multiple projects, standardizing data flow and reducing bugs from inconsistent state
- Modernized legacy codebases by introducing current frontend best practices, improving maintainability and developer velocity
- Drove Kanban-based sprint planning and cross-team prioritization with teammates and stakeholders, ensuring consistent on-time delivery

EDUCATION

React — The Rolling Scopes School	Feb 2023 – May 2023
JavaScript Front-end — The Rolling Scopes School	Sep 2022 – Feb 2023
Software Engineering — Far Eastern Federal University	Sep 2021 – May 2022
